

# WISI MN 08 B

Angled wall bracket, 200 mm

## Description

The MN 08 B is a high-quality aluminium alloy angle wall bracket designed for easy mounting of a parabolic antenna. This lightweight and robust bracket can withstand various weather conditions. Thanks to the four slotted holes on the base plate, installation is effortless. The mounting tube is covered with a black cap.

## At a glance:

- Angle wall bracket for parabolic antennas
- Tube diameter 50 mm
- Wall distance 200 mm
- Stable base plate with drawn tube fastening

## Technical data

Material	Aluminium alloy
