

WISI MN 10 B

Angled wall bracket, 400 mm

Description

The MN 10 B is a high-quality aluminium alloy angle wall bracket designed for easy mounting of a parabolic antenna. This lightweight and robust bracket can withstand various weather conditions. Thanks to the four slotted holes on the base plate, installation is effortless. The mounting tube is covered with a black cap.

At a glance:

- Angle wall bracket for parabolic antennas
- Tube diameter 50 mm
- Wall distance 400 mm
- Stable base plate with drawn tube fastening

Technical data

Material	Aluminium alloy
