

WISI MN 11 B

Angled wall bracket, 300 mm

Description

Angle wall bracket for mounting a parabolic antenna. Made of aluminium, the MN 11 B is both lightweight, durable, and resistant to weather influences. The installation is quick and easy thanks to four elongated holes in the base plate. The mounting tube is covered with a black cap.

At a glance:

- Angle wall bracket for parabolic antennas
- Tube diameter 50 mm
- Wall distance 300 mm
- Stable base plate with drawn tube fastening
