

WISI NC 103

Roof hood

Description

For mounting poles up to 60 mm in diameter. They are available in black or tile-red colours and adapt to roof tile shape. Made of a combination of quality aluminium alloy and UV-resistant plastic. They are durably weatherproof and can withstand temperatures from -30° to +110°C without leaving streaks on the roof.

The aesthetic black or tile-red coating blends harmoniously into your house roof. Aluminium roof tiles are environmentally friendly as they don't contain heavy metals. The aluminium roof tile is an alternative to the conventional lead roof tile and is perfectly and easily adaptable to any roof tile shape.
